Product designer specializing in consumer contribution, community, and engagement systems. Leads new product development from strategy and validation through launch and cross-platform growth, turning passive users into active, retained contributors.

Experience

Yelp

Lead Product Designer

2022 - now

Community Products & Growth

Conceived, validated, launched, and scaled Community Q&A, generating approximately 30K questions and more than 40K answers monthly across mobile, web, search, and AI experiences.

- Activated nearly 7K new contributors monthly and achieved approximately twice the one year retention of review contribution through an ecosystem for asking, answering, discovery, and feedback.
- Established Yelp's first user-to-user conversational experience and reusable patterns for question threads, assisted prompting, business tagging, reactions, and community discovery.
- Connected community content to strategic priorities including freshness, SEO, and Yelp Assistant, reaching more than 8M monthly impressions and approximately 3M users.

Contributor Engagement & Retention

Designed engagement systems spanning recognition, impact, reactions, streaks, milestones, annual recaps, contributor profiles, and the Yelp Elite journey.

Design Leadership & AI Enablement

Led AI upskilling for the design organization and improved design-to-engineering workflows, accelerating AI adoption and cross-functional collaboration.

Doc.ai

Product Designer

2020 - 2022

SaaS Product Design

- Served as sole product designer for Smart Omix, leading a decentralized clinical-research platform from product definition and architecture through web and mobile launch.
- Translated user and business needs into journeys, workflows, and product design with product, engineering, clinical, and sales partners.

System design

Created a Material UI-based design system and SaaS guide with shared components, governance, and engineer-ready Storybook and Chromatic documentation.

Education

Harvard University, Graduate School of Design

Master, graduated with distinction
